Comments:

2/23/2007 - Rec'd CRR back signed by Mardell Sutherland on 2/21/07

2/9/2007 - Sent CRR letter to operator - Reclamation and Bonding requirements - To avoid enforcement action, operator needs to submit surety & MRRC.

4/4/06 - Spoke with Bob Sutherland who is trying to put together a sale. If it happens, he thinks it will happen in early summer. He will notify the Division.

2/22/2006 - Inspection performed. Last September most of it was under water and it was impossible to see the limits of disturbance. Plan to discuss reclamation with the operator. We wanted a better idea what disturbance existed and what reclamation needs to be done.

Div. of Oil, Gas & Mining

Hi Wayne. Yes, White Cloud is a done deal. They recontoured the area last year, it has rained and collected water and subsequently dried up. Now you would never know it existed. And because there was not a bond we closed the file.

So, cut them loose or whatever you do.

Regards,

Chris

Chris,

what is the official status of the White Cloud Mine S/015/0044?

The operator sent in the annual report and requested release. I understand that there is no bond on the site and that the earthwork has been done.

The Division wants to know if there is more work that needs to be done or if we can release the site.

Subject: S0150044 Whitecloud Mine

Hi Wayne,

This site is being reclaimed. The operator was suppose to have the reclamation done by 10/30/2009. Has the reclamation been completed? Please update me on this. Thanks.
